Another example is Oklahoma's Kerry Jackson, who alternates at quarterback for Chuck Fairbanks' Sooners. Jackson was a key man in Oklahoma's victory over Texas last Saturday. It is also noteworthy that he quarterbacks the leading offensive team in the nation. Fairbanks also doubted the ability of freshmen to fit into the football program at Oklahoma. Getting closer to home, Coach "Bear" Bryanthas inserted two freshmen into his Saturday plans. Offensive lineman Greg Montgomery has earned a starting position, and tight end George Pugh is an alternating tight end. Also, we can look for defensive back Mike Washington to see more praying time this season. "I doubt that we will be able to see will be always tough Panthers. After a slawys tough Panthers. After a slowys tough Panthers. After a slawys tough Panthers. After a slowys tough Panthers. After a slowys tille, Coach Randy Griffin warns that Geneva doesn't like to lose in their home stadium. While on the subject of last week's game, there are many explanations for the letdown, if you can 't vorally all game with just 22 players. Look for the offense to vary, and possibly Wade Whatley to see some action at leading the beach of the letdown, if you can call a 26-0 victory a letdown. Crowd support was ordinary for the home team, and defensive regulars. Tech and Auburn are almost equal teams, but the home field advantage belongs to the Tigers. On the strength of defense again, it's Auburn 13, Tech 9.

It was good news to hear that Elba is to finally get another medical doctor. Probably the happiest of all will be the doctors themselves. Working day and night is alright for a while, but after doing it year in and year out it gets on the nerves. However, now is not the time to sit back on our soft chairs and go to sleep. We need another doctor NOW. It will take some time to get another at best, so we don't have time to rest but must keep looking.

Everything is coming up roses this week. I was very pleased to find our city fathers proceeding in earnest with plans to expand the local airport. With aviation an evergrowing part of the everyday business life, it is almost a necessity that we prepare to handle this trend in transporation. With Dorsey already endangering the lives of passenger and crew by using the shorter runway, and Kleinert's having to land in Dothan with their plane, we already have the need for this extension. The only question in my mind is, 'Is it enough?'

My only complaints this week will not shake the world or change the price of eggs in China. Football officials... several weeks ago I received a telephone call objecting to the statement in a news article that something was done "to please the Ozark coach". I haven't changed my opinion, but probably should have put it here rather than in the news article. Anyway, this last week the little ole official was more concerned with stopping the band from playing than he was in officiating the football game. It is a good thing he was not here the week before when the stadium was jammed, and both the Elba and Enterprise bands were constantly showing their abilities. The whole thing firmed up my opinion that he was inexperienced.
